Introduction

This policy sets out the approach to first aid across The 3-18 Education Trust (Trust).

The aims of the First Aid Policy are to:

- Ensure the health and safety of all staff, students and visitors.
- Ensure that staff, Trustees and Local Governors are aware of their responsibilities concerning health and safety.
- Provide a framework for responding to an incident and recording and reporting the outcomes.

Roles and responsibilities

General

In schools with Early Years Foundation Stage provision, at least 1 person who has a current paediatric first aid certificate must be on the premises at all times.

Beyond this, in all settings, and dependent upon an assessment of first aid needs, employers must usually have a sufficient number of suitably trained first aiders to care for employees in case they are injured at work. The minimum legal requirement is to have an 'appointed person' to take charge of first aid arrangements, provided the assessment of need has taken into account the nature of employees' work, the number of staff, and the location of the school. The appointed person does not need to be a trained first aider.

The names of individual school's appointed person(s)/first aider(s) are held at each school as they are live documents. Their names are also displayed prominently around the schools' sites. Notices are displayed prominently around schools detailing the location of the nearest first aid kit and the appointed first aiders.

Board of Trustees

The Board of Trustees has ultimate responsibility for health and safety matters across the Trust but delegates operational matters for health and safety to the Headteacher, which are managed by the School Business Manager who is/one of the nominated Appointed Persons at the individual school.

The Headteacher

The Headteacher is responsible for:

- Ensuring that an appropriate number of first aid trained staff are present in the school at all times.
- Ensuring all staff are aware of first aid procedures including but not limited to the location of equipment, facilities and first aid personnel and the procedures for monitoring and reviewing the school's first aid needs.
- Ensuring staff undertake, risk assessments, as appropriate, and that appropriate measures are put in place.
- Ensuring that adequate space is available to cater for the medical needs of students.
- Reporting specified incidents to the HSE when necessary.

The Appointed Person(s)

The Appointed Person(s) at each school are responsible for:

- Taking charge when someone is injured or becomes ill.

- Ensuring there is an adequate supply of medical materials in first aid kits and replenishing the contents of these kits.
- Ensuring that an ambulance or other professional medical help is summoned when appropriate.
- There are trained first aiders available on a daily basis.
- First aid training is current and refreshed every 3 years.
- Any member of staff involved in lunch-time supervision and technicians working in high risk areas have received first aid awareness training, refreshed annually
- There is an adequate supply of medical materials in first aid kits and replenishing the contents of these kits.

First Aiders

First aiders are trained and qualified to carry out the role and are responsible for:

- Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person and provide immediate and appropriate treatment.
- Ensuring that an ambulance or other professional medical help is summoned when appropriate and SLT are advised.
- Sending pupils home to recover, where necessary.
- Filling in an accident report on the same day, or as soon as is reasonably practicable, after an incident.
- Keeping their own contact details up to date.

Trust Staff

Trust staff have the following responsibilities:

- Ensuring they follow first aid procedures and know who the appointed person(s) and first aiders are within the school site.
- Informing the Headteacher, a member of SLT or for Mat Central Team, their line manager of any specific health conditions relating to themselves.
- Completing accident reports for all incidents they attend to where a first aider / appointed person is not called.

First Aid Procedures

On site school procedures

In the event of an accident resulting in injury:

- The closest member of staff present will seek the assistance of a qualified first aider who will assess the seriousness of the injury and provide the required first aid treatment.
- If further assistance is needed from a colleague or the emergency services. They will remain on scene until help arrives.
- The first aider will also decide whether the injured person should be left where they are, moved or placed in a recovery position.
- If the first aider judges that a student is too unwell to remain in school, parents will be contacted and asked to collect their child.
- If emergency services are called then reception, SLT and parents will be contacted immediately.
- The First Aider and/or member of staff who witnessed the incident will complete an accident report form on the same day or as soon as is reasonably practical after an incident.

Off school site procedures

When taking pupils off the school premises, staff will ensure they always have the following:

- A mobile phone
- A portable first aid kit
- Information and appropriate medication for any specific medical needs of students
- Parents' contact details if the visit is out of school hours depending on individual school's internal procedures.

Risk assessments will be completed by the Educational Visits Coordinator prior to any educational visit that necessitates taking students off school premises, including individual risk assessments where required.

The procedure for on school site accidents will be followed as closely as possible for any off school site accidents (though whether the parents can collect their child will depend on the location and duration of the trip).

For trips that involve pupils in early years provision, there will always be at least 1 first aider with a current paediatric first aid certificate on school trips and visits, as required by the statutory framework for the Early Years Foundation Stage.

Record Keeping and Reporting

First Aid and Accident Record Book

Where the school has a bespoke medical room, details of first aid given are recorded in the first aid book, which is kept in there. First aid may be recorded in first aid cheque books retained in first aiders personal first aid bag.

With any injury to the head, students are supervised for as long as required and parents are informed by telephone. For serious head injuries, parents are asked to collect.

Phone calls home relating to serious injuries are noted in the first aid book or incident form depending on individual school's internal procedures.

If an accident occurs, the first aider, or relevant member of staff, will complete an accident form, on the same day or as soon as possible after an incident resulting in an injury. The Business Manager keeps these records.

Reporting to the HSE

The Business Manager will keep a record of any accident that results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation.

Website for further guidance: <http://www.hse.gov.uk/riddor/>

Notifying parents/carers

Either the appointed person, or a member of SLT, will inform parents of any accident or injury sustained by a pupil, and any first aid treatment given, on the same day, or as soon as reasonably practicable. Parents will also be informed if emergency services are called.

Reporting to Ofsted and child protection agencies (early years only)

A member of SLT will notify Ofsted of any serious accident, illness or injury to, or death of, a pupil while in the school's care. This will happen as soon as is reasonably practicable, and no later than 14 days after the incident.

A member of SLT will also notify local child protection agencies of any serious accident or injury to, or the death of, a pupil while in the school's care.

Training

All Trust staff are able to undertake first aid training if they would like to.

All first aiders must have completed a training course and must hold a valid certificate of competence to show this. Each school will keep a register of all trained first aiders, what training they have received and when this is valid until. The register is a live document and can be viewed on request.

Trust Staff are encouraged to renew their first aid training when it is no longer valid.

First Aid Equipment

A typical first aid kit in each school will include the following (although this list is not prescriptive):

- A leaflet with general first aid advice
- Regular and large bandages
- Eye pad bandages
- Triangular bandages
- Adhesive tape
- Safety pins
- Disposable gloves
- Antiseptic wipes
- Plasters of assorted sizes
- Scissors
- Cold compresses
- Burns dressings
- Gloves

No medication is kept in first aid kits.

First aid kits are stored in multiple locations throughout the schools. A full list of locations within each school is displayed in each school.

Policy Monitoring and Review

Monitoring

The Chief Executive Officer will monitor the outcomes and impact of this policy on an annual basis.
