

Transition work for AL Film Studies

Contextual Films

During film studies, you will watch 11 films that make up the 7 sections.

The sections are **Hollywood 1930-1990**, **American film since 2005**, **British film since 1995**, **Global film**, **Documentary film**, **Silent Cinema** and **Experimental Film**

Therefore, I would like you to watch three films that complement the set text films and allow a deeper understanding of the issues raised during your study.

After you have watched each film, complete the set of questions. [Link](#)

The questions should encourage you to critically analyse your own viewing experiences. Bring them to your first lesson.
